

## Series 50A Non-Bellows Sealed Valve - Straight Pattern Globe

### Straight Pattern Globe

Class 800 gland sealed globe valve to BS5352, standard bore, outside screw and yoke, non-rising handwheel, bolted bonnet.

Available with integral hard faced seat or screwed in stainless steel seat.

Valve can be supplied with actuator - electric or pneumatic.

Butt weld end connections shown, also available as screwed, socket weld, flanged or special connection.

Nuclear versions to ASME III available.

Maximum pressure / temperature ratings are restricted by the valve end connections and the body / bonnet materials.

Materials can be changed to customer specifications. There are temperature restrictions on some materials, ie. C.St. ASTM A105 is not recommended for use above 425 °C.

If in doubt please ask, we will advise suitable materials for the temperature, pressure and media.
